

Welcome to the FairCare Mid-Term Hybrid Conference

The conference will showcase the project's midterm results and foster discussions on inclusion, self-determination, and collaborative fairness in long-term care. The aim is to empower individuals who require care, support their caregivers, encourage inclusive cooperation, and share practical solutions to enhance sustainable and equitable care systems.

CONFERENCE GOALS AND OBJECTIVES

Discover our goals and objectives

- Present the midterm results and key achievements of the FairCare project.
- Promote fair cooperation, self-determination, and inclusion in long-term care settings.
- Facilitate knowledge exchange among researchers, practitioners, carers, and stakeholders.
- Explore innovative tools and methods (e.g., peer training, digital platforms, and FairCareLabs).
- Encourage collaboration between formal and informal carers.
- Identify challenges and opportunities for implementing FairCare practices in different communities.
- Strengthen the FairCare network and support future impact and sustainability.

Why This Conference Matters

Tackling Challenges Together for Progress

The FairCare Midterm Conference will bring together participants and stakeholders to discuss the project's progress, share knowledge, and work together on fair, inclusive long-term care solutions.

It will encourage dialogue among attendees, promote practical tools and approaches, and strengthen a shared commitment to more equitable, person-centred care systems.

Everyone is welcome to join us!

Who should attend this conference?

The FairCare Midterm Conference is intended for a diverse group involved in long-term care and social inclusion, including:

- Researchers and academics in healthcare and social services
- Formal and informal caregivers
- Healthcare and social care professionals
- Policy-makers and public authorities
- NGOs and civil society organisations
- Trainers, educators, and adult learning providers
- Stakeholders interested in inclusion, self-determination, and fair care practices

Anyone interested in improving long-term care systems and fostering collaboration across sectors is welcome to attend.

Discover the incredible benefits of attending our conference

Unlock new opportunities for growth

Attending the FairCare Midterm Conference offers excellent opportunities to gain firsthand insights into innovative practices in long-term care and to discover practical tools you can apply in your work.

Participants will engage in meaningful discussions with experts, carers, and stakeholders while expanding their professional networks across Europe. By participating, you will also help develop fairer, more inclusive, and person-centred care systems.

Discover our detailed schedule for the conference

Your roadmap to an engaging experience

The **Mid-Term Hybrid Conference** includes welcoming sessions, presentations on FairCare's goals and midterm results, and partner-led insights into innovative tools and methods.

Interactive panel discussions will encourage dialogue on self-determination, collaboration in care, and real-world challenges. We will also offer dedicated networking opportunities so participants can connect, share ideas, and build lasting partnerships.

KEY THEMES OF THE CONFERENCE

Empowering Self-Determination in Long-Term Care

The conference focuses on promoting fair, inclusive, and person-centred long-term care with a strong emphasis on self-determination and the active involvement of those in need. It highlights the importance of empowering both care recipients and caregivers in supportive, respectful care systems.

Strengthening Collaboration in Care

A key theme is collaboration between formal and informal carers, examining how different stakeholders can work together effectively. The conference features practical tools, peer-learning methods, and digital resources created within FairCare to enhance cooperation and improve care practices.

Challenges, Opportunities, and Future Impact

Finally, the event addresses community-based solutions and future impact, examining challenges and opportunities in implementing fair care across different contexts. It aims to foster dialogue, share experiences, and build a sustainable network committed to advancing equitable care systems across Europe.

Questions regarding the conference

We understand you might have questions about the conference. This section provides clear answers to your most important questions about registration, participation, and the event's format. Having all the information you need will help you make the most of this exciting opportunity.
